Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I do not think it is fair to raise the rates. I only use my phone when I come home from work at night and if I have to when I am out by my self. It would hurt me if you raise the charges. I am not a person who talks on the phone going down the road as if I was at home. So please don't raise the cost and make it to where people like me and many others could not afford the phone and could not call if we had car trouble at night I have been like that before and it does not feel very good. Thank you

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
